New York, July 8.-Paris took \$1,750,000 from New York's gold supply to-day and London sold, it was estimated, 15,000 shares on balance in this market. These two events, apart from market movements of a purely professional or manipulative nature, were the principal market factors of the day.

Naturally enough they accentuated the feeling among conservative brokers that the bull movement was ill-advised and Anacostia and Potomac 5s. untimely, and that it is unreasonable to expect a continuation of it in a pronounced degree as long as the money situation remains unsettled and con-

The sentiment which induced the London selling was believed to have been created principally by the unfavorable bank statement of Saturday.

The strength of bullish manipulation to-day was concentrated on Amalgamated 114% Copper and St. Paul, which were marked Outsiders Buy Copper.

The only support the bull party has attracted in the course of the mover is a professional support, which has probably been more expensive than helpful. To the professionals, who three weeks ago were despondent over the fact that there was then no swing to the market, the movement has been a great boon. They have followed in the trail of the manipulators eagerly and joyfully, and have been delighted at the complacent manner in which the bull party has per mitted them to take profits. Many of them yesterday closed out long lines, and Washington Railway and Electric 4s bewere surprised as well as pleased to find ing specially strong, selling from 814 to or make the selling from the bull party aggressive enough to permit profit taking without a greater re- hammer as a starter to the day's trading.

report was a disappointment, showing only 2,000,090 bushels less wheat than the government reported a year ago. The Kentucky report was nearly as much short of last year. The market made only a momentary show of strength at the start; then prices dropped like a plumpnet, a sheer 2c from the early high point. Although the market was nervous and vallied frequently, prices were not maintained. Cash sales, 30,000 bushels; seaboard, 77 loads. Corn weakened, parily with wheat and partly on
